

# WingSpan Wall Stand Off

## INSTRUCTIONS

Place both arms into the rung bracket while pushing in on the locking pin. Slide arm into bracket until the locking pin engages in to the hole.

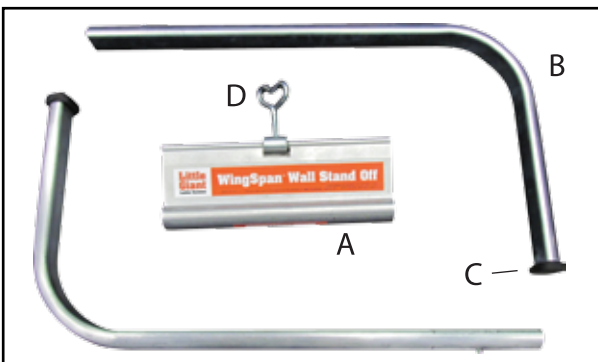

Place the WingSpan on the top rung of the ladder when the ladder is in extension position only. Make sure the WingSpan is centered securely on the top.

Swing the clamp into the front slot of the bracket so that the clamp is facing downwards. An adjustment of the clamp maybe necessary to insert clamp in the front slot.

This is how the WingSpan should look after you have assembled it.

### Kit #

A. Rung Bracket	30126
B. Arm Assembly Including Foot (1)	30127
C. Rubber Foot (2)	30128
D. Clamp Assembly (1)	30129
